# **1** Overview

Y.Productive is a personal productivity management tool. It helps you to keep your work under control and maximize the working hours and deliver excellent work output by eliminating habits that impede productivity. A Real-Time Productivity chart provides all the necessary information about your performance at a glance.

Your productivity is measured by chart bars. Y.Productive shows your efficiency ratings and what you can do to get better. The application shows you the websites and apps that you open during working hours, detailing what sites impact your work and what sites you open that hinder you from delivering excellent output. This greatly enhances your productivity by banning distracting websites during work hours, providing you with real-time productivity feedback on your goals and projects. Working with Y.Productive allows you to improve your concentration and develop productive work.

# 1.1 Features

With Y-Productive you can better manage and accomplish your tasks and achieve your goals with its To-do List integrated with Time Tracking and Productivity Chart. This application has the below in-built capabilities:

- Minimalistic productivity chart
- In-depth behavior analysis
- Focus mode
- Activities categorization
- Projects & Tasks
- Productivity reports

# 1.2 Technical details

- 1.2.1 Devices support
  - Windows
  - Mac
- 1.2.2 Language support
  - English
- 1.2.3 Extensions
  - Chrome
  - Safari
  - Firefox

# 2 Install application

In this document, we are using the Windows application for illustration.

Installing Y.Productive is a two-step process:

- Download the installation file
- Install Y.Productive.

**Note:** Mac users: If you're running Mac OS, download and install macOS application.

1. Go to the <u>Y.Productive download page</u> and click "Download Windows app".

Figure 2-1: Download windows app

2. When the file appears at the bottom of the browser, click the file. (If you don't see the file, choose Downloads from the Chrome menu.)

Figure 2-2: Installation file

- 3. Double-click the file to start the installation.
- **4.** When asked to confirm whether Windows should continue the operation (User Account Control dialog box), click Yes.

Figure 2-3: User Account Control dialog box

5. Wait for the application installation to complete.

Figure 2-4: Installation progress bar

**6.** Once the installation is completed, windows launch the Y.Productive application automatically.

Figure 2-5: Launch screen

# **3** Application access

# 3.1 Sign up – New user registration

To register in the application,

 On the sign-in screen, click "Sign up" at the bottom, to navigate to the registration page.

Figure 3-1: Navigation from Sign-in page to Registration page

After being navigated to the registration page,

In the Name text box, enter the **"Name"** you wish to register.

- In the Email text box, enter the "Email ID" you wish to register.
- In the Password text box, enter the "Password" you wish to use as security to your sign-in.
- Tick the check box to confirm that, you have read and accepted the terms of service and privacy policy.
- After filling all the required fields, click on sign up to successfully register your Email ID and Password.

To start/stop the task timer:

Play with application demo	1h 20m	98.0%	
Play with application doma	01/01/06	00.0%	

# 5.3 Chart

The chart's goal is to give your insight into your digital behavior. One bar represents 5 minutes of your time. Its height indicates the level of your productivity: the higher, the better. Colors match the appropriate tasks.

The chart in Y-Productive is designed to inform you about every action that harms your productivity. The indications are:

- The bars' height decreases
- High number of switching in the bars context menu
- Huge list of "unproductive" activities

Figure 5-20: Chart elements

### 5.3.1 Chart insight

If you click on any range of bars on the chart, you see a pop-up that shows activities (websites and applications) on which you've spent time.

	Focu	s Mode: Off	Ξ
Spent on tasks: 9	9h 53m Productive tir	me: 8h 25m (8§	5%)
	1h 10m (19:00-20:10) Play with application demo	:00 20:	00
U Unproduc Switching	Reassign to a task	orized: 1h 4m	(11%)
faceb 32m (7	Productive (98%): Y-Productive (58%)	il.com (56%)	PU
youtu 11m (26	<ul> <li>fakewebsite1.com (19%)</li> <li>fakewebsite2.com (11%)</li> </ul>	ium.com 5%)	PU
	··· other (10%)	er.com 0%)	PU
	Unproductive (2%): Switching: 1 times	oductive.atla 0%)	PU
Show a	facebook.com (2%)		
	Show all activities		

Figure 5-21: Chart insight

Activities are grouped by categories:

- **Productive** The websites or apps that are vital for your workflow or improve it.
- Unproductive The websites or apps that make you lose your focus or divide your attention.
- Uncategorized (new) New websites or apps which are yet to be determined to be productive or unproductive for you.

Switching numbers shows how many times you have shifted to unproductive activities.

#### 5.3.2 Chart – Assign to task

Your activities are automatically recorded even if you didn't create or track any tasks (the gradient colored bars). Chart bars may be assigned to the appropriate task retrospectively.

To assign to task:

- Click on the gradient area and click the "Assign to a task".
- Select the task.

Figure 5-22: Chart - Assign to task

Note: The bars' colors will be matched with the color of your task.

### 5.3.3 Chart – Reassign to task

To reassign to task:

- Click on the colored area and click the "Reassign to a task".
- Select the task.

Figure 5-23: Chart - Reassign to task

### 5.3.4 History tab

You may research your best productivity hours by comparing the days in the History Tab. View the best or worse productivity tendency by checking the chart bars` height: the better you perform - the higher it is.

loday 17 May	Ę	Tracked time: <b>9h 12m</b>	Spent on tasks: 8h 36m	Productive time: 6h 27m (75%)

# 6 Categories

In this menu, you can build a personal working environment that best fits your needs. It consists of 3 sections.

- Uncategorized
- Productive
- Unproductive

It allows you to segregate the activities based on the categorize by drag and drop function. Also, you can manually add the new activity pertaining to the category.

# 6.1 Add new activity

To add a new activity:

Click "+Add new activity" as shown below.

Figure 6-1: Add new activity

- Select the category.
- Enter the **URL** of the website.
- Click "Add activity".

	Add new a	ictivity
Category:	Productive	Unproductive
URL:	example: yout	ube.com/ted
×	Cancel	<ul> <li>Add activity</li> </ul>

# 6.2 Reassign activity

To reassign the activity:

Drag and drop the activity to the respective category.

Figure 6-3: Reassign activity

# 7 Reports

Get summarized insights covering your performance and time spent on tasks or projects by days, weeks, or months.

To view the reports:

• Navigate to the reports menu.

# 8 Focus mode

This feature allows you to block distracting websites with a built-in automatic website blocker on Safari, Firefox, or Chrome. It enhances the personal productivity tracker.

Prerequisite:

Download the focus mode extension for your browser. Without extension, focus mode will not work. This extension is required to maintain the full functionality of Y-Productive's application.

# 8.1 **Download extension**

To download extension:

Click the "Focus Mode" button.

Figure 8-1: Focus mode

In the resulting screen select the browser extension, to download.

Figure 8-2: Download extension

The application automatically navigates you to the download URL. *(we are using chrome for illustration)* 

Click "Add to chrome"

Figure 8-3: Chrome extension

# 8.2 Enable focus mode

To enable focus mode:

Click the **"Focus Mode"** button in the right top corner of the app.

Figure 8-4: Enable focus mode

Focus mode is now enabled.

Figure	8-5:	Focus	mode	on
--------	------	-------	------	----

To disable Focus Mode, simply stop the progress tracking for a task. For the time working the access to websites which you've categorized as "unproductive" will be restricted. When you've finished your work or feel like taking a break, just click the button again and the access will be restored.
